

ASMA RIAZ

Lahore, Pakistan • asmariaz2903l@gmail.com • github.com/asma-riaz

PROFESSIONAL SUMMARY

Full-stack Web Developer with hands-on experience building and deploying responsive web applications using HTML5, CSS3, JavaScript (ES6+), React JS, Tailwind CSS, and PHP/MySQL. Delivered 4+ independent projects spanning e-commerce platforms, restaurant management systems, student portals, and browser-based games, deployed to production via Netlify, Vercel, and Render. Strong foundation in clean, maintainable code, component-based architecture, REST APIs, and JWT authentication.

EXPERIENCE

Independent Project Developer

Sep 2025 – Present

Self-Directed

Lahore, Pakistan

- Designed, built, and deployed 4+ full-stack web projects including a React-based e-commerce platform with JWT authentication, a PHP/MySQL restaurant management system with admin dashboard, a student records portal, and interactive JavaScript games.
- Implemented JWT-based authentication and role-based access control across projects, separating user and admin experiences with protected routes and server-side permission checks.
- Built responsive, cross-device layouts using HTML5, CSS3, Tailwind CSS, and JavaScript, targeting mobile viewports from 360px through desktop widths.
- Managed all projects on GitHub with clean branching and commit practices; deployed React frontends to Vercel and PHP backends to Render.

Social Media Marketing Executive

Jun 2025 – Aug 2025

DK Recruitment

Lahore, Pakistan

- Managed company social media presence and ran paid ad campaigns on Google, Facebook, and Instagram; monitored analytics to track and improve campaign ROI.

PROJECTS

EliteVerse — Full-Stack E-Commerce Platform [GitHub](#)

May 2026

Tech: React JS, PHP, MySQL, JWT, Recharts, Tailwind CSS

- Engineered a production-ready e-commerce platform featuring product listings, dynamic cart, wishlist, and a multi-step checkout flow with real-time client-side card validation.
- Architected JWT-based authentication with role-based access control, delivering separate buyer and admin portals; admin dashboard includes full CRUD for inventory and orders along with a Recharts-powered analytics panel to visualize revenue trends and order volumes.
- Built a RESTful PHP backend with MySQL, handling authentication, product queries, order processing, and data persistence across all user sessions.

ZestyBites — Restaurant Management Website [GitHub](#)

Mar 2026

Tech: HTML5, CSS3, JavaScript, PHP, MySQL

- Developed a multi-page restaurant website with interactive menu browsing, service showcase, and a contact form, driven by JavaScript for smooth in-page transitions and real-time UI feedback.
- Built a secure PHP/MySQL backend powering an admin dashboard with login authentication and role-based access, enabling staff to manage menu items and handle customer inquiries without touching code.

Student Management System [GitHub](#)

Mar 2026

Tech: PHP, MySQL, XAMPP, phpMyAdmin, HTML5, CSS3

- Built a full-stack student records portal with a protected admin interface supporting complete CRUD operations; used PHP prepared statements throughout to eliminate SQL injection vulnerabilities.

- Designed an intuitive data browsing experience with department-wise collapsible sections, CGPA-based color coding for instant visual assessment, and client-side pill filters for fast record lookup without page reloads.

Tic-Tac-Toe with AI Opponent [GitHub](#)

Jan 2026

Tech: HTML5, CSS3, JavaScript

- Built a polished browser-based Tic-Tac-Toe game with dynamic win detection, live turn tracking, and an unbeatable minimax AI opponent that evaluates all possible game states to always play optimally.
- Achieved fluid cross-device responsiveness using clamp()-based sizing, ensuring the game board scales naturally from compact mobile screens to wide desktop displays without media query breakpoints.

SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3, PHP, SQL

Frameworks & Libraries: React JS, Tailwind CSS, REST API, Recharts

Database & Backend: MySQL, phpMyAdmin, XAMPP, JWT Authentication

Tools & Platforms: GitHub, VS Code, Netlify, Vercel, Render

Core Competencies: Responsive Design, Cross-Browser Compatibility, DOM Manipulation, CRUD Applications, UI/UX Principles

EDUCATION

Bachelor of Science in Computer Science

Expected May 2027

Lahore College for Women University (LCWU) • Lahore, Pakistan

CERTIFICATIONS

Certificate of Coding

Feb 2025 *Government Graduate College for Women, Gulberg, Lahore*

Certificate of Social Media Marketing

Aug 2025 *DK Recruitment*
